## THREE ARE MURDERED

**Roomer Slays Two Men and Woman at Canonsburg**

## THEN SHOOT HIMSELF

An enraged forger, a grievance and a newly-purchased revolver are responsible for a triple murder at Canonsburg Monday evening with the murderer himself lying at death's door after an attempt to commit suicide when the enormity of his deadly deed was realized.

**The Dead.**  
Mike Movack, aged 40 years, died from injuries in 20 minutes.  
Mary Movack, aged 37 years, his wife, instantly killed.  
Frank Starvareo, aged 21 years, died from injuries about an hour later.

**The Injured.**  
John Laborish, aged 48 years, in the Canonsburg General hospital in an extremely serious condition as the result of wounds inflicted by himself.

The tragedy is believed to be the culmination of an enmity entertained against the Movacks by Laborish for their protecting his daughter Antoinette against attempted outrages by the inhuman father and murderer. Laborish and his daughter occupied two upstairs rooms of the Movack home and several days ago he committed an assault on his daughter, which caused her to come to the Movacks for protection.

Antoinette was kept in safety from her father and he apparently did not care. Monday afternoon he went to Canonsburg and purchased a 38 revolver and going to the Movack home asked in a threatening manner why they insisted on keeping his daughter from him.

Suddenly pulling the revolver he fired in the direction of the girl who was standing back in the room. The bullet did not hit her and she fled. Turning Laborish then commenced firing upon the Movacks and their boarder Starvareo. One bullet hit Mrs. Movack in the spine and passed completely through her body killing her almost instantly. Another bullet took effect in Mike Movack's left breast and he lived but 20 minutes, having died from internal bleeding. Starvareo, the boarder, was shot in the neck by Laborish and lived for one hour.

Realizing the enormity of his crime Laborish turned the weapon upon himself and fired a bullet into his own body. It took effect in his abdomen. He was later removed to the Canonsburg General hospital. The bullet was probed for and an operation performed with the hope of saving his life but the attending physicians state that his chances for recovery are decidedly slim.

The bodies of the murdered men and woman were loaded in an ambulance and taken to the McNary mortuary to be prepared for burial. News of the triple murder traveled quickly and upon the arrival of the ambulance containing the bodies there was a large crowd gathered about the undertaking rooms.

Coroner Heffran was notified of the crime by telephone at Charleroi and he announced that he would go to Canonsburg this morning and start an investigation.

## Clothing Is Much Needed

**Children Suffering Because of Lack of Warm Wearing Apparel**

Chief of Police C. W. Albright, who is an official of the Associated Board of Charities stated this morning that there are a number of families in town where children are much in need of clothing. Underclothes and outer clothing are both needed.

He makes a request that any person having clothing which has been outgrown, or which may serve further use, will either bring it to the police station or notify him so that collections may be made.

## MUD BOTHERING MONESSEN PEOPLE

**Postoffice Department Refuses to Provide Snow Shoes for Carriers**

## WORKING UP A GRUDGE

Just emerging from the throes of a bitter political combat Monessen is all "hot" up over another matter. The political combat had to do with the county offices as well as municipal affairs but the present subject has not attained the dignity or standing of even a political scrap. The subject is "mud." Monessen comes strong on throes, and this particular three promises to develop into something more exciting than just a little mud-slinging.

It all has to do with a little contention arising over the refusal of the postoffice department, locally represented by Postmaster E. M. Frye to allow the free delivery carriers to deliver mail in sections where it takes more than a vivid imagination to discover walks. You never know when a pedestrian may sink from sight while toiling his weary way over the sloppy waste, or when a team and wagon may suddenly vanish.

Obviously it was impossible for Postmaster Frye to provide his carriers with snow shoes for successfully traversing the muddy sections. The government did not provide such in its list of supplies, so the next best thing to do was to call off his carriers from the dangerous sections.

Aroused to an angry pitch over what they claimed to be their rights, residents of the slighted neighborhood appealed. Their appeals reached a certain councilman. This councilman gravely pondered the matter, and then declared himself. He said that of course council couldn't provide walks for people when people wouldn't provide walks for themselves. People were crying for ashes all over the town to relieve them of the burden of wading through the mud but he said that owing to the recent rains it would keep a couple of teams busy hauling ashes all the time. There was apparently no way to anchor the ashes, and they either would form into thin mud and wash down the hill or dry up and blow away. Ashes as a remedy would prove a dismal failure.

Postmaster Frye, backed by the government, is standing pat, and Monessen people are working up a big grudge.

## WILL ADD TO FORCE

**Postmaster McCardle Arranges to Handle Heavy Mail**

## OFFICE OPEN SUNDAY

With the mails coming unusually heavy, Postmaster J. E. McCardle is making arrangements whereby he can handle the Christmas trade in the best possible shape. Beginning tomorrow a substitute carrier will be employed for a couple of weeks and during the rush time an extra clerk will be employed. Arrangements have been made to disburse mail matter on Sunday and Monday.

The large part of the Christmas packages will come in on Sunday and Monday. Possibly the largest mail will be on Sunday. Accordingly the postoffice will be open from 1 o'clock until 5 o'clock that day, with the exception of 40 minutes from 3:20 o'clock until 4 o'clock. Patrons may secure mail Sunday afternoon. They are asked to call for packages and mail matter. Monday morning there will be one mail delivery, but if the expected heavy mail comes in, that will be entirely inadequate. Regular holiday hours will be observed Monday.

The registered mail matter usually heavily laden with money being sent by foreigners to friends abroad is not so large this year as it has been in past years. It is the custom among foreign people usually to send money home to friends at Christmas time, but the lack of steady work has made these amounts smaller than usual.

## NO PARTICULARS OF ENOS' DEATH

Clive Enos Monday evening received a telegram from Walter Gaither secretary to Gov. Tener stating that Gov. Tener was away but upon his return he would institute an inquiry through U. S. authorities.

## BATTLE IN MINE

**Fatality May Result From Combat Between Foreigners**

## HEAVY CLUB A WEAPON

As the result of a fight early Monday morning in the Crescent mine of the River Coal and Coke company near California John Simpo is lying in the Mercy hospital, Pittsburgh, with little hope entertained for his recovery. His alleged assailant Andy Garmock is out on bail pending a hearing before Justice Hambray Friday evening.

Both men reside on what is known as Red Hill above Daisytown and both are well known miners. Both are employed as motormen in the mines. It is claimed that Simpo has been in the habit of bullying Garmock constantly by jumping on the latter's motor and starting it.

Monday morning the two men were in the mine when it is claimed Simpo jumped on Garmock's motor after the latter had warned him to keep off. It is said that as soon as Simpo leaped upon the motor Garmock picked up a short heavy club used to block the wheels and struck Simpo across the right temple. Simpo's skull was crushed in and his right eye was knocked out.

The injured man was at once rushed to the hospital while his alleged assailant was placed under arrest, but soon after released on bail.

## CHARLEROI BEATS CONNELLSVILLE

**Adams' Team Proves Too Fast for Passers From Mud Island**

In a tight, hotly-contested struggle on the Charleroi floor Monday night, Charleroi won from Conneltsville 38 to 35. Furious at all times, with Charleroi generally in the lead, it was a contest well calculated to test the nerves of the many fanatics who surrounded the cage and shouted themselves hoarse.

Kummer, who stars in spectacular plays and foul shooting captured the first score, when he dropped a foul into the basket. From that time forth it was nip and tuck. Conneltsville played a fine defensive game but needed to for Charleroi was putting up the real article in aggressiveness. Jimmy Brown managed to drop the elusive bulb into the basket and his brother followed suit. Charleroi got the advantage of the majority of the fouls and Adams heaved the ball into the basket pretty regular. Conneltsville wasn't idle while all this was going on. White got two field goals and then the rest began cashing in until each had one to his credit. Kummer manipulated the marks for three out of seven foul goals. The result at the end of the first half furnished no indication of how the game was really going to subside.

## Officials At Station

**New Charleroi Edifice Rapidly Acquiring Reputation Among Railroad Men**

Headed by E. F. Krahmer, the local P. R. R. agent, the employees at the Charleroi freight station went to Brownsville Monday night to hear a lecture on "Explosives." The lecture was also attended by a party of officials from Pittsburgh. Like others this party of officials made it a point to leave Pittsburgh in time so they could get a chance to stop and view the new Charleroi station. The new handsome and commodious structure erected here by the Pennsylvania railroad is attracting considerable attention among builders and railroad men.

## ROLLS DUCKPINS AT AGE OF 81

As a feature of the celebration of his 81st birthday, Gilbert Uptegraft, who in his time has been teamster, fireman, railroad and school truant officer, rolled a game of duckpins Monday afternoon. His birthday occurred a few days ago and Monday in company with Taylor Foreman, H. A. Kauffe and H. Beazel, he went to the Casino alleys where a game of duckpins was enjoyed. Foreman was the winner, scoring 91 points. Kauffe was second highest, with 91, and Uptegraft rolled 62.

Mr. Uptegraft is an old Pittsburgher. He used to haul war munitions when he drove team there. He was an organizer of the Good Hope fire company of Pittsburgh in the volunteer days, and later became a paid fireman. As a railroader he worked along what is the present Monongahela division road when it was being built.

## MERGER IS EFFECTED

**Independent Telephone Companies Form Corporation**

## INCLUDES MANY LINES

Notice is being given that application will be made to the Governor of Pennsylvania on January 8, 1912, for a charter for an intended corporation to be known as the "North American Telephone and Telegraph company." If the charter is granted a powerful independent corporation will have been formed which will have permission to conduct a telephone and telegraph service in practically every county in Pennsylvania, with connections in Maryland, West Virginia and Ohio. According to information to be known as the "North American Telephone and Telegraph company." If the charter is granted a powerful independent corporation will have been formed which will have permission to conduct a telephone and telegraph service in practically every county in Pennsylvania, with connections in Maryland, West Virginia and Ohio. According to information to be known as the "North American Telephone and Telegraph company." If the charter is granted a powerful independent corporation will have been formed which will have permission to conduct a telephone and telegraph service in practically every county in Pennsylvania, with connections in Maryland, West Virginia and Ohio.

The merger is the proposal of the bondholders of the Consolidated Telephone companies of Pennsylvania. By the new plan the reorganization of the American Union system which owns a controlling interest in the Consolidated Telephone companies of Pennsylvania, combines these two companies with the National Telephone corporation of West Virginia. The capitalization of the corporation is to be as follows: First mortgage 50-year 5 per cent bonds, \$12,000,000; 5 per cent non-cumulative preferred stock, \$10,000,000. The common stock is to be \$2,500,000.

In the corporation some of the independent companies along the Monongahela valley will not be included notably those controlled by the Independent Telephone construction company. Numbering among these will be the Charleroi Telephone company, the Belle Vernon Telephone company, the Roscoe company and the California company. The Tri-State line, with Pittsburgh as its center is included in the merger as well as the National at Washington, it is stated. One of the strongest companies of the State, the Johnstown Telephone company is not included.

## THE EVER READY REVOLVER

The right to bear arms as an in-  
 herent constitutional privilege of  
 American citizenship has never been  
 seriously questioned, although the  
 practice of carrying concealed weap-  
 ons is discouraged in the most of the  
 States. Circumstances, however, alter  
 cases, and the time has now arrived  
 when the inherent right should be  
 ended. There are too many homici-  
 des and murders as the result of  
 the indiscriminate use of firearms.

No more better example of this is  
 afforded than the ghastly homicide  
 that occurred at Canonsburg Monday.  
 An enraged foreigner nursing a  
 grievance purchases a revolver and  
 murders three unoffending people, be-  
 sides trying to end his own life by the  
 same method. In his native country  
 this foreigner could not have pur-  
 chased so deadly a weapon with  
 which to commit crime and it would  
 have been a penal offense to have had  
 such a weapon in his possession.  
 Without this deadly weapon it is  
 doubtful if the crime could have been  
 committed, even if the attempt were  
 made.

It is crimes like these that call for  
 summary action. The right to own  
 and purchase deadly weapons indis-  
 criminately is an evil that should be  
 regulated. A foreigner who is not  
 permitted to own firearms in his own  
 country immediately makes an ar-  
 senal of himself on arriving in this  
 country. In the deadly quarrels that  
 follow the unrestricted drinking and  
 carousing which is permitted in this  
 State for lack of proper State police  
 for industrial communities, the ever-  
 ready revolver furnishes a tragedy  
 with startling frequency. With the  
 vanishing forests and the need of de-  
 fense from wild beasts and savages  
 should go the rifle, the shotgun and  
 the revolver, and the use of firearms  
 should be confined to the gentle art  
 of warfare. Too many people are  
 slain annually by the use of the ever-  
 ready revolver.

## PICKED UP IN PASSING

"We talk about the good old times  
 when people didn't spend money for  
 every little thing" remarked a travel-  
 ing man in town a day or two ago,  
 "but who would want to make a  
 freak of himself or herself as we did  
 then? We look with amusement at  
 the foreign women and children who  
 just come over. The oddity of the  
 women's dress in particular is grotes-  
 que to us yet I well remember when  
 I was a lad in a small village 40  
 years ago and went to school how all  
 the small girls were clothed in gar-  
 ments very similar to the long waisted  
 dresses worn by the peasant women  
 from Southern Europe. The girls'  
 dresses were made of striped flannel  
 as a rule, and they wore coarse calf  
 skin shoes. They had a cape or a  
 shawl for a wrap, and wore knitted  
 hoods or 'nubias' on their heads. If  
 you could see a bunch of school  
 maidens clad as they were 10 years  
 ago you'd declare they were fresh  
 from Ellis Island.

"The boys were also clad in what  
 would now be called vaudeville cos-  
 tumes. We wore checked flannel  
 shirts, no collars, caps and comfort-  
 ers, with our trousers tucked into  
 cowhide leather boots. Our mothers  
 cut our hair, and made our clothes,  
 and utility and durability were the  
 first considerations. Speaking of  
 hair cutting reminds me that a bar-  
 ber couldn't make a living in a town  
 of considerable size then, for the  
 reason that no one would patronize  
 him. Those were the days when we  
 didn't spend any money, because we  
 virtually had none to spend, but  
 every one was just as hard up then  
 as now. About the only difference  
 that I can see is that then we had  
 no money to spend, went without  
 things and were always broke; now  
 we have more money, spend it all,  
 and go broke. The effect is just the  
 same."

## WANTS GRAND JURY TO MEET

To the Editor of the Charleroi Mail: Sir:—A curious coincidence crops out in connection with the conspiracy charges against T. B. Brown, et al. is the fact that Callaghan is the author of the present conspiracy law passed in 1887 and signed by James A. Beaver. The modifications of the law was prompted at the time on account of 40 workmen, who were confined in the Washington county jail charged with conspiracy and it was to liberate them that caused the change in the conspiracy law. That law while simple and brief is one of the most beneficent laws on the statute books of the state. There are only two persons in the state that cannot be charged with conspiracy under it, and they are man and wife. But this case is so plain and so convincing in the Acheson-Judson-Brownless matter that it carries conviction with it. I am urging a special session of the grand jury to take the matter up. Otherwise Governor Tener will make the appointments until the case is decided.

E. Callaghan.

### Lungs Declared Sound—Life Insurance Granted

If you knew a remedy that really had cured Tuberculosis, that had saved from death quite a number of people, would you try to get Consumptives interested in it and induce them to take it; or, would you say nothing about it, for fear of giving offence?

We know the medicine. We know the people cured—some of them. We have the stories of cure of many—and add them from some. We advertise Eckman's Alternative to tell those who have lung disease what has been done by its use. Investigate the following:—

"Gentlemen: On the evening of May 12, 1907, I had five hemorrhages from the right lung. My hemorrhages kept up for one week—I had twenty-eight in all. Septic pneumonia developed. My doctor told me I had better go to another climate, as my left lung, had also become affected. I started to take Eckman's Alternative. About that time I met Howard Klotz, 1619 S. 3rd Avenue, Philadelphia, who had hemorrhages several years ago and who was cured by Eckman's Alternative. I started to take Eckman's Alternative. I started to gain weight. I improved steadily. Since my recovery sometime ago, I was accepted for life insurance, after two examinations by a company that had previously rejected me."

"I have advised several people to take Eckman's and those who took it faithfully had the same results as myself." (Signed) ALFRED J. CHAS. MORGAN. (Full details of this case on request.)

Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung troubles, and in unbuilding the system. Does not contain poisons, opiates or habit forming drugs. Ask for booklet of cured cases and write to Eckman Laboratory, Philadelphia, Pa., for more evidence. For sale by all leading druggists and

### CHARLEROI BEATS CONNELLSVILLE

(Continued from first page)

It was Charleroi 16, Connelville 15. The second half opened auspiciously enough when Albie Brown secured the ball from somebody or other and with an ease all his own tossed the ball through the basket. After that field goals came frequently for Charleroi, every player on the team getting his share. Connelville got behind ten points at one time and within the last five minutes of play by four field goals and two foul goals tried to overtake Charleroi. They made a poor try out of it and the game ended with them three behind. Lineup: Charleroi—38 Connelville—33 Adams.....F..... Kummer

J. Brown.....F..... White, his record beaten last night but after A. Brown.....C..... Cavanaugh, the second half was well started by Herron.....G..... Beggs copped two. Herron.....G..... Egolf Substitutions—Doherty for Cavanaugh. Field goals—Adams 2, J. Brown 2, A. Brown 3, Pfeiffer, Herron 2, Kummer 1, White 4, Cavanaugh Beggs, 3 Egolf. Foul goals—Adams, 14 out of 23; Kummer, 9 out of 19 Referee—Meisel.

By winning from Connelville Monday night Charleroi tied with them for third place. If Adams and his passers can take tonight's contest it will place them in the lead substantially. To date Connelville and Charleroi have both played 21 games, each winning 10 and losing 11. The percentage of each is 47%. Jacky Adams has not failed to score one or more field goals every game. It looked as though they had

## THREE ARE MURDERED

**Roomer Slays Two Men and Woman at Canonsburg**

### THEN SHOOT HIMSELF

An enraged forger, a grievance and a newly-purchased revolver are responsible for a triple murder at Canonsburg Monday evening with the murderer himself lying at death's door after an attempt to commit suicide when the enormity of his deadly deed was realized.

**The Dead.**  
Mike Movack, aged 40 years, died from injuries in 20 minutes.  
Mary Movack, aged 37 years, his wife, instantly killed.  
Frank Starvareo, aged 21 years, died from injuries about an hour later.

**The Injured.**  
John Laborish, aged 48 years, in the Canonsburg General hospital in an extremely serious condition as the result of wounds inflicted by himself.

The tragedy is believed to be the culmination of an enmity entertained against the Movacks by Laborish for their protecting his daughter Antoinette against attempted outrages by the inhuman father and murderer. Laborish and his daughter occupied two upstairs rooms of the Movack home and several days ago he committed an assault on his daughter, which caused her to come to the Movacks for protection.

Antoinette was kept in safety from her father and he apparently did not care. Monday afternoon he went to Canonsburg and purchased a .38 revolver and going to the Movack home asked in a threatening manner why they insisted on keeping his daughter from him.

Suddenly pulling the revolver he fired in the direction of the girl who was standing back in the room. The bullet did not hit her and she fled. Turning Laborish then commenced firing upon the Movacks and their boarder Starvareo. One bullet hit Mrs. Movack in the spine and passed completely through her body killing her almost instantly. Another bullet took effect in Mike Movack's left breast and he lived but 20 minutes, having died from internal bleeding. Starvareo, the boarder, was shot in the neck by Laborish and lived for one hour.

Realizing the enormity of his crime Laborish turned the weapon upon himself and fired a bullet into his own body. It took effect in his abdomen. He was later removed to the Canonsburg General hospital. The bullet was probed for and an operation performed with the hope of saving his life but the attending physicians state that his chances for recovery are decidedly slim.

The bodies of the murdered men and woman were loaded in an ambulance and taken to the McNary mortuary to be prepared for burial. News of the triple murder traveled quickly and upon the arrival of the ambulance containing the bodies there was a large crowd gathered about the undertaking rooms.

Coroner Heffner was notified of the crime by telephone at Charleroi and he announced that he would go to Canonsburg this morning and start an investigation.

## Clothing Is Much Needed

**Children Suffering Because of Lack of Warm Wearing Apparel**

Chief of Police C. W. Albright, who is an official of the Associated Board of Charities stated this morning that there are a number of families in town where children are much in need of clothing. Underclothes and outer clothing are both needed.

He makes a request that any person having clothing which has been outgrown, or which may serve further use, will either bring it to the police station or notify him so that collections may be made.

### WORKING UP A GRUDGE

Just emerging from the throes of a bitter political combat Monessen is all "hot" up over another matter. The political combat had to do with the county offices as well as municipal affairs but the present subject has not attained the dignity or standing of even a political scrap. The subject is "mud." Monessen comes strong on threes, and this particular throe promises to develop into something more exciting than just a little mud-slinging.

It all has to do with a little contention arising over the refusal of the postoffice department, locally represented by Postmaster E. M. Frye to allow the free delivery carriers to deliver mail in sections where it takes more than a vivid imagination to discover walks. You never know when a pedestrian may sink from sight while toiling his weary way over the sloppy waste, or when a team and wagon may suddenly vanish.

Obviously it was impossible for Postmaster Frye to provide his carriers with snow shoes for successfully traversing the muddy sections. The government did not provide such a list of supplies, so the next best thing to do was to call off his carriers from the dangerous sections.

Aroused to an angry pitch over what they claimed to be their rights, residents of the slighted neighborhood appealed. Their appeals reached a certain councilman. This councilman gravely pondered the matter, and then declared himself. He said that of course council couldn't provide walks for people when people wouldn't provide walks for themselves. People were crying for ashes all over the town to relieve them of the burden of wading through the mud but he said that owing to the recent rains it would keep a couple of teams busy hauling ashes all the time. There was apparently no way to anchor the ashes, and they either would form into thin mud and wash down the hill or dry up and blow away. Ashes as a remedy would prove a dismal failure.

Postmaster Frye, backed by the government, is standing pat, and Monessen people are working up a big grudge.

## WILL ADD TO FORCE

**Postmaster McCardle Arranges to Handle Heavy Mail**

### OFFICE OPEN SUNDAY

With the mails coming unusually heavy, Postmaster J. E. McCardle is making arrangements whereby he can handle the Christmas trade in the best possible shape. Beginning tomorrow a substitute carrier will be employed for a couple of weeks and during the rush time an extra clerk will be employed. Arrangements have been made to disburse mail matter on Sunday and Monday.

The large part of the Christmas packages will come in on Sunday and Monday. Possibly the largest mail will be on Sunday. Accordingly the postoffice will be open from 1 o'clock until 5 o'clock that day, with the exception of 40 minutes from 3:20 o'clock until 4 o'clock. Patrons may secure mail Sunday afternoon. They are asked to call for packages and mail matter. Monday morning there will be one mail delivery, but if the expected heavy mail comes in, that will be entirely inadequate. Regular holiday hours will be observed Monday.

The registered mail matter usually heavily laden with money being sent by foreigners to friends abroad is not so large this year as it has been in past years. It is the custom among foreign people usually to send money home to friends at Christmas time, but the lack of steady work has made these amounts smaller than usual.

## BATTLE IN MINE

**Fatality May Result From Combat Between Foreigners**

### HEAVY CLUB A WEAPON

As the result of a fight early Monday morning in the Crescent mine of the River Coal and Coke company near California John Simpo is lying in the Mercy hospital, Pittsburg, with little hope entertained for his recovery. His alleged assailant Andy Garnock is out on bail pending a hearing before Justice Hambray Friday evening.

Both men reside on what is known as Red Hill above Daisytown and both are well known miners. Both are employed as motormen in the mines. It is claimed that Simpo has been in the habit of bullying Garnock constantly by jumping on the latter's motor and starting it.

Monday morning the two men were in the mine when it is claimed Simpo jumped on Garnock's motor after the latter had warned him to keep off. It is said that as soon as Simpo leaped upon the motor Garnock picked up a short heavy club used to block the wheels and struck Simpo across the right temple. Simpo's skull was crushed in and his right eye was knocked out.

The injured man was at once rushed to the hospital while his alleged assailant was placed under arrest, but soon after released on bail.

## CHARLEROI BEATS CONNELLSVILLE

**Adams' Team Proves Too Fast for Passers From Mud Island**

In a tight, hotly-contested struggle on the Charleroi floor Monday night, Charleroi won from Connel'sville 38 to 35. Furious at all times, with Charleroi generally in the lead, it was a contest well-calculated to test the nerves of the many fanatics who surrounded the cage and shouted themselves hoarse.

Kummer, who stars in spectacular plays and foul shooting captured the first score, when he dropped a foul into the basket. From that time forth it was nip and tuck. Connel'sville played a fine defensive game but needed to for Charleroi was prying up the real article in aggressive play. Jimsey Brown managed to drop the elusive bulb into the basket and his brother followed suit. Charleroi got the advantage of the majority of the fouls and Adams heaved the ball into the basket pretty regular. Connel'sville wasn't idle while all this was going on. White got two field goals and then the rest began cashing in until each had one to his credit. Kummer manipulated the marker for three out of seven foul goals. The result at the end of the first half furnished no indication of how the game was really going to subside.

was also attended by a party of officials from Pittsburg. Like others this party of officials made it a point to leave Pittsburg in time so they could get a chance to stop and view the new Charleroi station. The new handsome and commodious structure erected here by the Pennsylvania railroad is attracting considerable attention among builders and railroad men.

## ROLLS DUCKPINS AT AGE OF 81

As a feature of the celebration of his 81st birthday, Gilbert Uptegraft, who in his time has been teamster, fireman, railroader and school truant officer, rolled a game of duckpins Monday afternoon. His birthday occurred a few days ago and Monday in company with Taylor Foreman, H. A. Kaufle and H. Beazel, he went to the Casino alleys where a game of duckpins was enjoyed. Foreman was the winner, scoring 91 points. Kaufle was second highest, with 91, and Uptegraft rolled 62.

Mr. Uptegraft is an old Pittsburger. He used to haul war munitions when he drove team there. He was an organizer of the Good Hope fire company of Pittsburg in the volunteer days, and later became a paid fireman. As a railroader he worked along what is the present Monongahela division road when it was being built.

## MERGER IS EFFECTED

**Independent Telephone Companies Form Corporation**

### INCLUDES MANY LINES

Notice is being given that application will be made to the Governor of Pennsylvania on January 8, 1912, for a charter for an intended corporation to be known as the "North American Telephone and Telegraph company." If the charter is granted a powerful independent corporation will have been formed which will have permission to conduct a telephone and telegraph service in practically every county in Pennsylvania, with connections in Maryland, West Virginia and Ohio. According to information the independent telephone companies of Pennsylvania are to be included in a \$35,000,000 merger, which will embrace most of the independent lines.

The merger is the proposal of the bondholders of the Consolidated Telephone companies of Pennsylvania. By the new plan the reorganization of the American Union system which owns a controlling interest in the Consolidated Telephone companies of Pennsylvania, combines these two companies with the National Telephone corporation of West Virginia. The capitalization of the corporation is to be as follows: First mortgage 50-year 5 per cent bonds, \$12,000,000; 5 per cent non-cumulative preferred stock, \$10,000,000. The common stock is to be \$2,500,000.

In the corporation some of the independent companies along the Monongahela valley will not be included notably those controlled by the Independent Telephone construction company. Numbering among these will be the Charleroi Telephone company, the Belle Vernon Telephone company, the Roscoe company and the California company. The Tri-State line, with Pittsburg as its center is included in the merger as well as the National at Washington, it is stated. One of the strongest companies of the State, the Johnstown Telephone company is not included.

### THE EVER READY REVOLVER

The right to bear arms as an in-  
herent constitutional privilege of  
American citizenship has never been  
seriously questioned, although the  
practice of carrying concealed weap-  
ons is discouraged in the most of the  
States. Circumstances, however, alter  
cases, and the time has now arrived  
when the inherent right should be  
ended. There are too many homi-  
cides and murders as the result of  
the indiscriminate use of firearms.

No more better example of this is  
afforded than the ghastly homicide  
that occurred at Canonsburg Monday.  
An enraged foreigner nursing a  
grievance purchases a revolver and  
murders three unoffending people, be-  
sides trying to end his own life by the  
same method. In his native country  
this foreigner could not have pur-  
chased so deadly a weapon with  
which to commit crime and it would  
have been a penal offense to have had  
such a weapon in his possession.  
Without this deadly weapon it is  
doubtful if the crime could have been  
committed, even if the attempt were  
made.

It is crimes like these that call for  
summary action. The right to own  
and purchase deadly weapons indis-  
criminately is an evil that should be  
regulated. A foreigner who is not  
permitted to own firearms in his own  
country immediately makes an ar-  
senal of himself on arriving in this  
country. In the deadly quarrels that  
follow the unrestricted drinking and  
carousing which is permitted in this  
State for lack of proper State police  
for industrial communities, the ever-  
ready revolver furnishes a tragedy,  
with startling frequency. With the  
vanishing forests and the need of de-  
fense from wild beasts and savages  
should go the rifle, the shotgun and  
the revolver, and the use of firearms  
should be confined to the gentle art  
of warfare. Too many people are  
slain annually by the use of the ever-  
ready revolver.

## PICKED UP IN PASSING

"We talk about the good old times  
when people didn't spend money for  
every little thing" remarked a travel-  
ing man in town a day or two ago  
—but who would want to make a  
freak of himself or herself as we did  
then? We look with amusement at  
the foreign women and children who  
just come over. The oddity of the  
women's dress in particular is gro-  
tesque to us yet I well remember when  
I was a lad in a small village 40  
years ago and went to school how all  
the small girls were clothed in gar-  
ments very similar to the long waisted  
dresses worn by the peasant women  
from Southern Europe. The girls' dresses  
were made of striped flannel  
as a rule, and they wore coarse calf  
skin shoes. They had a cape or a  
shawl for a wrap, and wore knitted  
hoods or 'nubias' on their heads. If  
you could see a bunch of school  
maiden clad as they were 40 years  
ago you'd declare they were fresh  
from Ellis Island.

"The boys were also clad in what  
would now be called vaudeville cos-

—shirts, no collars, caps and comfort-  
ers, with our trousers tucked into  
cowhide leather boots. Our mothers  
cut our hair, and made our clothes,  
and utility and durability were the  
first considerations. Speaking of  
hair cutting reminds me that a bar-  
ber couldn't make a living in a town  
of considerable size then, for the  
reason that no one would patronize  
him. Those were the days when we  
didn't spend any money, because we  
virtually had none to spend, but  
every one was just as hard up then  
as now. About the only difference  
that I can see is that then we had  
no money to spend, went without  
things and were always broke; now  
we have more money, spend it all,  
and go broke. The effect is just the  
same."

## Mark Twain

tells of one Christmas when he received eight pairs of house slippers as gifts. Some one asked him what he did with them, and his laconic reply was: "wore 'em." There is more genuine comfort in a pair of rightly made house slippers than can well be described, and many a man has been made a "home bird" by a pair at Christmas time.

### This Certainly Is "Slipper" Year

We have sold more slippers to date, by a half than ever before—but it's no wonder; our stocks are a half bigger, handsomer, better and cheaper than ever before.

## WANTS GRAND JURY TO MEET

To the Editor of the Charleroi Mail:

Sir:—A curious coincidence crops out in connection with the conspiracy charges against T. B. D. et al is the fact that Callaghan is the author of the present conspiracy law passed in 1887 and signed by James A. Beaver. The modifications of the law was prompted at the time on account of 40 workmen, who were confined in the Washington county jail charged with conspiracy and it was to liberate them that caused the change in the conspiracy law. That law while simple and brief is one of the most beneficent laws on the statute books of the state. There are only two persons in the state that cannot be charged with conspiracy under it, and they are man and wife. But this case is so plain and so convincing in the Acheson-Judson-Brownlee matter that it carries conviction with it. I am urging a special session of the grand jury to take the matter up. Otherwise Governor Tener will make the appointments until the case is decided.

E. Callaghan

### Lungs Declared Sound—Life Insurance Granted

If you knew a remedy that really had cured Tuberculosis, that had saved from death quite a number of people, would you try to get it? Consumptives interested in it and induce them to take it; or, would you say nothing about it, for fear of giving offence?

We know the medicine. We know the people cured—some of them. We have the stories of cure of many—and advertisements from some. We advertise Eckman's Alternative to tell those who have lung disease what has been done by its use. Investigate the following—

On the evening of May 1, 1907, I had five hemorrhages from the right lung. My hemorrhages kept up for one week—I had twenty-eight in all. Septic pneumonia developed. My doctor told me I had better go to another climate. As my left lung had also become affected, I started to take Eckman's Alternative. 1629 Sprague Avenue, Philadelphia, who had hemorrhages several years ago and who was cured by Eckman's Alternative. I started to take Eckman's about the latter part of August, 1907. My appetite improved at once and in about two weeks I started to gain weight. I improved steadily. Since my recovery some time ago, I was accepted for life insurance, after six examinations by a company that had previously rejected me.

I have advised several people to take Eckman's and those who took it faithfully had the same results as myself. (Signed Affidavit) CHAS. MORGAN. (If other details of this case on request.)

Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles and in unbuilding the system. Does not contain poisons, opiates or habit forming drugs. Ask for booklet of "cure and cause" of Lung Disease, Eckman Laboratory, Philadelphia, Pa., for more evidence. For sale by all leading druggists and

### CHARLEROI BEATS CONNELLSVILLE

(Continued from first page)

It was Charleroi 15, Connelville 15.

The second half opened auspiciously enough when Allie Brown secured the ball from somebody or other and with an ease all his own tossed the ball through the basket. After that field goals came frequently for Charleroi, every player on the team getting his share. Connelville got behind the ball at one time and during the last five minutes of play by four field goals and two foul goals tried to overtake Charleroi. They made a poor try out of it and the game ended with them three behind. Lineup: Charleroi—38 Connelville—35 Adams.....F..... Kummer:

J. Brown.....F..... White, his record beaten last night but after the second half was well started he copped two.  
A. Brown.....C..... Cavanaugh  
Pfeifer.....G..... Beggs  
Herron.....G..... Egolf  
Substitutions—Doherty for Cavanaugh. Field goals—Adams 2, J. Brown 2, A. Brown 5, Pfeifer, Herron 2, Kummer 4, White 4, Cavanaugh Beggs, 3 Egolf. Foul goals—Adams, 14 out of 23; Kummer, 9 out of 19 Referee—Meisel.

By winning from Connelville Monday night Charleroi tied with them for third place. If Adams and his passers can take tonight's contest it will place them in the lead substantially. To date Connelville and Charleroi have both played 21 games, each winning 10 and losing 11. The percentage of each is 476.

Jacky Adams has not failed to score one or more field goals every game. It looked as though they had
